

President's Message

From the President's Desk

Warm greetings to all fellow CAESOK members. I am extremely honored and very proud to occupy the highest seat in our CAESOK family. Indeed, it is a great moment in my life to head a society which has assumed great heights in a short span of time. The full credit goes to the previous office bearers from 2002 onward who have been very much instrumental in achieving this position for the society. Each and every member of CAESOK family also contributed equally to this success.

Well-established scientific community should have a standard journal to exhibit their scientific excellence which has been fulfilled by our CAESOK journal – J CAESOK – rechristened as CEJ. Full credit goes to our young, enthusiastic, enterprising, and vibrant editor Dr Ganesh and his team. I take this opportunity to congratulate them for the remarkable effort. I would also like to request each and every member to contribute to our journal so that we can get it indexed. I know very well that all our members regularly get cases of interest in their routine clinical practice. Make it a point to spend a few hours in a month for the preparation of manuscripts so that you can come out with a good publication from the data you get. Publications are important from different perspectives. One, you could share your unique experiences with others so that they are also benefited; two, you get a solid data bank of our own cases; three, you give inspiration to the coming generation. The main drawback in India is not the dearth of cases or knowledge but the lack of documentation. Hence, we have to rely on foreign books and case studies. The cases and situations may be compatible for their situations and need not work in our scenario due to changed ethnic, social, geographic, and other variables. Let us be self-reliant in every aspect.

I am really thrilled to know that CAESOK has been well recognized by our National association IACDE and IES by appointing our immediate past President Dr Dhanapal Prashanth as the coordinator of the National P G convention to be conducted in four zones. Indeed, it really is a crowning accomplishment for both the past president as well as the CAESOK family. Hearty congratulations to you Dr Prashanth.

My tenure as president has just started and I am planning to continue the good works done by my predecessors. I hope all will give the same support and guidance that was bestowed upon by my forerunners. I request all members to join us to make the next CAESOK meet in Bali in September as well as Postgraduate Convention scheduled to be held in Kochi memorable and outstanding.

Jai CAESOK !!

K Ravi Varma MDS
President CAESOK

Retd. Deputy Director of Health Services, Thiruvananthapuram, Kerala, India
Former Professor and Head
Yenepoya Dental College, Darala Katte, Mangaluru, India
