

Editorial

Conservative Dentistry and Endodontic Journal (CEJ) is now in a partnership with Jaypee Brothers Medical publishers, which is one of the pioneers and most trusted publishing houses in India. This new beginning for the journal, will further broaden our reach and will assist in establishing it in the dental scientific publishing world.

First of all, I would like to thank the society and the editorial review board for their unstinting support for this endeavour. A true association blends and balances scientific, academic and recreational activities and this certainly will lead to it playing a vibrant role in the world.

Special thanks to Jaypee Brothers for showing true professionalism in all the discussions and meetings, which I believe will be for the betterment of the journal.

Now, we have online submission, editing and peer reviewing to improve the scientific quality and to impart a touch of professionalism to the journal. This will be an Open Access Peer reviewed journal (Online only) and print issues will be available on request only. Indexing the journal is our next priority and for this we need the support of all the reviewers for prompt and effective reviewing of the articles.

I am sure that with all your support and encouragement we can take this journal to the next level.

With warm regards

Ganesh C
Editor-in-Chief
