

# Editorial

---

Dear Readers,

First of all I thank the contributors, editors, readers and the Jaypee Brothers Medical Publishers (P) Ltd. for bringing out the current issue of Journal of Health Sciences and Research (JOHSR).

We are receiving articles from other institutions and also from associated specialities. Dental science is advancing day by day and your journal should also keep pace with rapid developments. After Jaypee Brothers Medical Publishers (P) Ltd. has taken responsibility of publishing, the quality has improved. We are still focused on making this a PubMed indexed journal. We need cooperation and help from all of you to achieve this.

Wishing you good reading!
