1. Aims and Scope

It is the aim of this journal to provide platform for members to have access to scientific and peer reviewed clinically oriented guidelines for practice and professional updating of subject of obstetrics and gynaecology.

The scope of South Asian Federation of Obstetrics and Gynaecology (SAFOG) journal is to cover the broad subject of obstetrics and gynecology and give out articles, information, and practice guidelines. The journal has fixed format of review articles, presentations as original studies by members and readers, operative skill reviews, case reports, and midwifery peer reviewed practice guidelines. In addition, call upon experts and clinical authorities among member countries of SAFOG region to give out Editorials on policy formulating topics such as maternal mortality, abortions, contraceptives, reproductive health preservation of women, etc. As well to tabulate reproductive health country specific data to create awareness regarding the enormity of maternal and neonatal problems. To give out reader specific information for forthcoming professional events in the region. It remains a platform for better communication and exchange of reproductive indices among member countries. Also to amalgamate with world bodies, recommendations for practice guidelines for members.

Brief of the Journal: The SAFOG journal is the official organ and publication of South Asia Federation of Obstetrics and Gynecology. This is a scientific and peer reviewed platform of exchange of professional activities, clinical practice guidelines, operative skill updates, and nursing midwifery practices among member countries.

2. Ethical Considerations

Investigation and surgery on human subjects should conform to the guidelines noted in the World Health Organization Chronicle 1976;30:360-362.

Manuscripts submitted for publication must comply with the following ethical considerations:

Informed Consent

Informed consent of the patients must be taken before they are considered for participation in the study. Patient identifying information, such as names, initials, hospital numbers, or photographs should not be included in the written descriptions.

Patient consent should be obtained in written and archived with the authors.

Protection of Human Subjects and Animals in Research

When conducting experiments on human subjects, appropriate approval must have been obtained by the relevant ethics committee. All the procedures must be performed in accordance with the ethical standards of the responsible ethics committee both (institutional and national) on human experimentation and the Helsinki Declaration of 1964 (as revised in 2008). When reporting experiments on animals, authors must follow the institutional and national guidelines for the care and use of laboratory animals.

3. Copyright

Following guidelines must be followed before submission of the manuscript:

The articles must represent original research material, should not have been published before, and should not be under consideration of publication elsewhere. This, however, does not include previous publications in form of an abstract or as part of published literature (review or thesis). It is the duty of the author to obtain the necessary permissions for extensive quotations, tables, illustrations, or any other copyrighted material they are using in the paper before a paper can be considered for publication. Copyright of the article gets transferred to Jaypee Brothers Medical Publishers (P) Ltd., once the article has been accepted for publication. The author would be asked to sign the ‘Copyright Transfer Form’ before his/her article is considered for publication. Once the Copyright Transfer statement has been signed by the corresponding author, no change in authorship or in the order of the authors listed on the article would be accepted by Jaypee Brothers Medical Publishers (P) Ltd. Also by signing the above-mentioned form, the author reassigns the rights of copublishing, or translation if considered necessary in future to the publisher. In the advent of occurrence of any dispute, the matter would be resolved within the jurisdiction of New Delhi court.

While all care has been taken to provide accurate and correct information in accordance with the date of publication, neither the authors/editor or the publisher takes any legal responsibility for any unintentional omission or error. The publisher makes no expressed or implied warranty with respect to the information contained herein. The published material cannot be photocopied for the following purposes: general distribution, promotion, new works or resale. If this is required, specific written permission requires to be obtained from the publisher. Exclusive rights to reproduce and distribute the articles in this journal have been protected by copyright. This also covers the rights to reproduce or distribute the article as well as the translation rights. No material published in this journal can be reproduced in digital format or stored in form of electronic databases, video disks, etc.

Both the conflict of interests and financial disclosure needs to be handled well while conducting the research study. Disclosure of such relationships is also important in connection with all articles submitted for publication. Both of these have also been included in the copyright transfer form. Authors should give due acknowledgement to the individuals who provide writing or other assistance while conducting the research study and also disclose the funding source for the research study.
