ORIGINAL RESEARCH

• Antimicrobial Efficacy of Mixtures of Nanosilver and Zinc Oxide
  Eugenol against Enterococcus faecalis ........................................................................................................177-181
  Roza Haqghoo, Motahareh Ahmadvand, Mohammad Nyakan, Mojtaba Jafari

• Evaluating Various Preparation Protocols on the Shear Bond Strength of
  Repaired Composite ...................................................................................................................................... 182-187
  Ayah A Al-Asmar, Khaled S Hatamleh, Muhanad Hatamleh, Mohammad Al-Rabab’ah

• Clinical Success of Fiber-reinforced Composite Resin as a Space Maintainer ..................................188-193
  Zuhal Kirzioglu, Z Zahit Ciftci, Ceylan C Yetis

• Evaluation of the Role of Music as a Nonpharmacological Technique
  in Management of Child Patients ...............................................................................................................194-197
  Neha Gupta, Himanshu Gupta, Prablad Gupta, Nidhi Gupta

• Flute and Shank Dimensions of Reciprocating Instruments before and
  after Simulated Root Canal shaping ............................................................................................................. 198-204
  Felipe C Sampaio, Ana PP Brito, Heloisa HP Veloso, Ana HG de Alencar, Daniel de A Decurcio
  Jose AP de Figueiredo, Carlos Estrela

• Comparison of Different Post Systems for Fracture Resistance: An in vitro Study ......................... 205-208
  Sunee V Vadavadagi, Kiran M Dhananjaya, Rashmi P Yadahalli, M Lahari, Shilpa R Shetty, BL Bhavna

• Effect of newly Developed Resin Cements and Thermocycling on the
  Strength of Porcelain Laminate Veneers ......................................................................................................209-213
  Fawaz I Alqahtani

• Evaluation of 4% Sodium Hypochlorite in eliminating Enterococcus faecalis from
  the Root Canal when Used with Three Irrigation Methods: An in vitro Study ................................. 214-217
  Harsh Priyank, Vinisha Pandey, Abhishek Bagul, Kishore Kumar Majety, Parul Verma,
  Basanta Kumar Choudhury

• Knowledge, Attitude, and Practice of Women in Slums of Pimpri,
  Chinchwad, Pune, Maharashtra, India, regarding Usage of Mishri ......................................................... 218-221
  Roshani M Chawla, Pranjan Mitra, Sahana H Shetiya, Deepthi R Agarwal, D Satya Narayana, Nikhil Bomble

• Ion Release and Galvanic Corrosion of Different Orthodontic Brackets
  and Wires in Artificial Saliva .........................................................................................................................222-227
  Soodeh Tahmasbi, Tahereh Sheik, Yasamin B Hemmati
• Oral Health Status and Oral Health-related Quality of Life among Hospitalized and Nonhospitalized Geriatric Patients ................................................................. 228-233
  Abdulaziz M AlBaker, Fahad F AlBaqami, Tariq M AlHarbi, Mohammad D AlAmri, Jagan K Baskaradoss

• Patterns of Restorative Failure among Khat and Shammah Users in Jazan City, Kingdom of Saudi Arabia: A Cross-sectional Survey ......................................................... 234-240
  Mohammed E Sayed, Razan A Bosly, Huda A Hakami, Maryam H Mugri, Shilpa H Bhandi

REVIEW ARTICLES

• Treatment of Extrusive Luxation in Permanent Teeth: Literature Review with Systematic Criteria ........................................................................................................... 241-245
  Marina F Amaral, Melyna M de Almeida, Lorraine P de Faria, Daniela A Brandini, Wilson R Poi, Roberta Okamoto

• Additive and reducing Effects between Calcium Hydroxide and Current Irrigation Solutions ................................................................................................................. 246-249
  Zahed Mohammadi, Hamid Jafarzadeh, Sousan Shalavi, Rasoul Sahebalam, Jun-Ichiro Kinoshita

• Early Orthognathic Surgery: A Review ................................................................................................................................. 250-256
